English visible supply decreased last reek 35,000 bushels.

Receipts of wheat at primary points yes-terday were 1,306,000 bushels; shipments, 1,401,000 bushels.

Indian wheat shipments were 18,000 bushels to the Continent the past week, and nothing to the United Kingdom.

The amount of wheat on ocean passage for the week increased 640,000 bushels, while corn decreased 569,000 bushels.

Clearances from the four ports yesterday were: Wheat, 92,000 bushels: flour, 17,776 barrels; corn, 204,009 bushels; oats, 51,000 bushels. Clearances in wheat and flour equal to 155,000 bushels.

Heavy frost was general Sunday night in Kansas, Iowa and Nebraska. Missouri was saved by cloudiness. Very low temterature yesterday morning in the Southwest and higher in Northwest. Fair weather and warmer Tuesday is indicated.

Black sea wheat shipments the past week were 3,960,000 busnels, which would make the total world's shipments for the week 7,856,000 busnels. However, the official figures will not be known until to-day.

the fuel bill will result.

A Chicago wire yesterday morning was:
"This ought to be quite an interesting week in wheat. This market should be watched closely Big men here all own some wheat. Each one knows the other has a lot, and after a 10 cent advance some of them are likely to sell out. Think the largest holder was a seller towards the close on Saturday. The advance we have had has been largely helped by foreign buving. That stopped, at least in a measure during the last few days. With good weather in the Northwest we are going to have receipts that will look pretty large, and I shall not be surprised to see a moderate decline."

A BIG SURPRISE IN WHEAT.

RESUMES ITS UPWARD MARCH, AFT-ER A SHARP BACKSET.

December Closes 1 5-Se Higher Than Saturday, Although Opening Lower-Corn Gains 3-Se and

Oats 1-8c-Provisions.

Chicago, Sept. 28.—Wheat furnished a big surprise to-day, December closing 1% higher after an early decline of %c. The decrease in the world's visible was entirely unexpected, and started a wild buying movement, resulting in the advance. Corn closed %c higher, oats %c higher, and provisions %c lower to 5c higher.

The suggestion of the early news regarding wheat was that it would probably see lower prices at the close to-day than on Saturday. The action of the market during the first few minutes of the session wheat was that it would probably see lower prices at the close to-day than on Saturday. The action of the session week in wheat. This market should be

ing the first few minutes of the session justified such a conclusion, for December, which had closed on Saturday worth 66%c, opened this morning at 65%665%c. The bearish early news was about as follows: Chicago receipts, 252 cars, compared with 167 a year ago; Minneapolis and Duluth receipts, 1,557 cars, against 1,108 on Monday a week ago; Black sea ports' shipments for the week, 3,850,000 bushels, suggesting a total of about 8,000,000 bushels as having last week, and foreign markets apparently pess that inight crop up here. Advices from the Northwest also continued to re-port the probability of increased farmers' liveries, and the Atlantic port clearances since Salurday were only equal in flour and wheat together to 200,000 bushels. But in side of all this, there was steady, persistent buying by professionals, who are sat-isfied that prices have not yet re-overcome, December gradually advancing to 66%c. Later in the session the visible supply statement provided a sensation, and roce of a good deal of the wheat bought a jecrease of 974,000 bushels instead of an increase of about 1,250,000 bushels, as expected, and compared with an increase a year ago of 1,382,000. That settled the matter for the day so far as the extinguishment of the hearish feeling with which the local crowd started was concerned. A regular ficod of covering orders poured in, and Desember was rushed up to 68c in a very whort space of time. There was a weak aftil later, December declining to 66% but heavy short buying soon shot prices upward again, December closing firm at 67% but heavy receipts and the cold weather in the West, which it was expected would hasten the time of moving the new crop. Later, when wheat became builish the shorts took fright and began to clutch rather nervously for the limited offerings, causing a considerable rise, considering the bearish exhibition of figures for the day. May opened he lower, at 25%c, declined to 25c, and advanced to 25% 25c, closing firm at 25%c.

Outs were rather quiet. The firmness

Oats were rather quiet. The firmness which was displayed was influenced entirely through sympathy with wheat and corn. Prices closed about 1sc better all around than Saturday's final quotations. May opened a shade lower, at 194c, and advanced to 194c, closing steady at 1946 194c. Commission houses appeared well supplied with selling orders at the opening, and prices were lower for awhile in consesupplied with selling orders at the opening, and prices were lower for awhile in conse-quence. All that was changed when wheat and prices were lower for awhile in consequence. All that was changed when wheat became very strong and that appeared the sole reason for the advance which followed.

January pork closed 5c lower, at \$7.10;
January lard, 5c higher, at \$4.15;
January ribs unchanged, at \$3.52\cdot 93.55.

Estimated receipts Tuesday: Wheat, 285 cars; corn, 1,000 cars; oats, 650 cars; hogs, 16,000.

MONEY, STOCKS AND BONDS.

A BEARISH DAY IN WALL STREET AND TRADING LIGHT.

The Tendency of Everything Was Downward, Notwithstanding an Enny Money Market-Close Showed Sharp Declines.

The week opened yesterday with a fair counter business, but the demand for money was moderate. Some little new paper was in from the country, but merchants and manufacturers were wanting but little assistance. But the grain and live stock men are using some little new money. Rates of discount steady and firm money. Rates of discount steady and firm at 848 per cent. Currency movements to the country light. Bank clearings, \$1,344,-745; same day last year, \$1,526,535, a decrease of \$181,790, a loss of 11 per cent. Eastern exchange quiet and weak. Houston, Fible & Co., exchange brokers, quote it as follows: New York, 75c discount; Chicago, 25c discount; St. Louis, 25c discount.

The gold reserve yesterday was \$122,223,-648.

The gold reserve yesterday was \$122,223,-448.

New York, Sept. 28.—The steamship La Bretagne, from Havre, brought \$2,000,000 in gold, making the total engagements and arrivals to date, \$44,575,500. The gold will be deposited at the subtreasury in exchange for legal tenders.

London, Sept. 28.—In addition to the heavy shipments last week, it is anticipated that at least \$5,000,000 more in gold will be exported to New York. There is every prospect that money rates will harden, and perhaps the Bank of England will deem a further rise in the rate advisable, as there is considerable continental demand for bullion. The downward movement of investment securities continues to be the feature of the stock exchange. All these stocks are almost unsalable at present prices.

Stocks and Bonds. New York, Sept. 28 .- All the professionals this morning, and the bears were also fairly aggressive. Realizations were the order of the day on the part of the weak holders, Business was on a declining ratio and the distribution was poor, St. Paul and Burlington practically constituting the market, although the fluctuations in other shares were wide. It was virtually conceded that a large speculative corporation was being "gunned for." The market was fairly animated early in the day, but subsequently became sluggish. An easier money market contrasted with a firmer tendency in foreign exchange and predictions that the gold import movement had ceased were met by London estimates of probable large shipments of the metal to this country this week. The chief influence upon prices, however, was unfavorable traffic returns. The closing was steady at general sharp losses.

Railroad bonds were fairly active but this morning, and the bears were also fair-The closing was steady at general sharp losses.

HEATON WILL FIGHT.

Has Employed an Attorney and Will Attempt to Be Released on

Habeas Corpus.

E. Barnett, proprietor of the Antiers hotel at Colorado Springs, Col., arrived in the city yesterday for the purpose of effect. ing some settlement with C. W. T. Heaton, the alleged confidence man and crook under arrest here, whom he charges with fleecing him out of \$125 for board. During the day Heaton employed Attorney J. H. Worthen, who will to-day endeavor to secure his release on a writ of habeas corpus. When Heaton was in Colorado Springs he posed as the son of Senator J. M. Camden, of Parkersburg, W. Va., displayed a letter bearing the forged signature of Senator Camden and is said to have secured payment on a check for £30 purporting to be signed by Senator Camden.

The latter was in Colorado Springs at the time Heaton was there, and it is supposed Heaton either obtained the check from the senator by fraudulent means or forged his name to it. When Chief Dans, of Colorado Springs, was informed of Heaton's arrest here he supposed Senator Camden was yet in the city and so wired the authorities here to hold Heaton. The senator had gone to San Francisco, however, and there was some delay in locating him, and ascertaining whether or not he would prosecute Heaton. Hence the delay in sending an officer with requisition papers.

DESERTED BY HER HUSBAND. Mrs. Hannah Ashley Sent to Her Home

in Denver.

Mrs. Hannah Ashley, who had been sitting in the Union depot waiting room since Sunday morning, was sent back to her old home in Denver yesterday evening through the aid of Mrs. Beattle, the depot matron. One of the railroads charitably gave her a half fare ticket. Four weeks ago she and her husband, George H. Ashley, a carpenter, left Denver for St. Louis. He expected to find work there but he was disappointed. On Saturday night he bought his wife a ticket over the Wabash road for Kansas City and placed her on the train. At the same time he bought himself a ticket over the Burlington for St. Joseph. He told his wife that he would meet her at the Union depot here at noon on Sunday. He did not not despair. He did not come yesterday either. She was certain then that he had descried her and she went to Mrs. Beattle and begged her to help her to get back to Denver. She said that her husband had \$69 when he quit her at St. Louis. She is a young woman of not unprepossessing appearance. in Denver.

TENANTS IN COMMON.

Decision by Judge Philips in a Suit for Partition of Land.

for Partition of Land.

Judge Philips, in the federal court yesterday, handed down an opinion in the case of Tyree L. Holton and others against John Guinn. The suit was for the partition of some valuable mining land down in Jasper county. It was in 1874 that Ellijah Lloyd learned of the location of some land on which there were valuable mineral deposits. He had no money but he secured Guinn, who was weathly, to put up the purchase price of the land, about 18,000, by agreeing to repay him that sum with interest when the property was developed and became remunerative, after which each man was to hold an undivided one-half. The mines paid handsome dividends and the sum was promptly repaid and the business went on until the death of Lloyd in 1894, when his administrator tried to have the property divided. Guinn opposed, claiming there was a partnership. The opinion yesterday declared there was no partnership but that both men were tenants in common and the property was liable to partition. partition

BOARD OF APPEALS. Was in Session at Independence All

The county court, sitting as a board of appeals at Independence, commenced its labors yesterday, and, in consequence, the entrance to the room where the board was in session was besteged all day. Dozens of business men took the early trains from this city and, stood in line until admitted one by one to a conference. The notices of a raise have been greater in number this year than ever before, and some of the applicants held yesterday that the board of equalization, which was in sension ten days ago, made some radical changes in the sworn lists as handed in to the assessor. The cause of this was the fact that the assessment fell far short of what it should have been, and the defict must be made up, and the taxpayers have to suffer in consequence. of Yesterday.

Criminal Court Proceedings.

Ed Findley's appeal from the police court was tried in the criminal court yesterday, morning. After several hours' deliberation the jurors reported that they could not agree on a verdict. Judge Wofford discharged them and continued the case until the next term of the court. Findley was heavily fined in the police court by Judge Gifford because on the night of August 6 he called Officer Whalen hard names. Findley was angry because Whalen arrested his partner, Gus Baughman, for having fired a revolver at Clim Newell, a rival gambler, and let Newell go. Nathan Weinberger was sentenced to two days' confinement in the county jail for having received stolen goods. He is a second-hand dealer on the Southwest boulevard.

James Malloy withdrew a plea of not guilty, and pleaded guilty to a charge of grand larceny. He was sentenced to three years in the penitentiary. He has been there before. Criminal Court Proceedings.
